This Information Disclosure Statement is being filed, to the undersigned's knowledge, concurrently with the filing of a Request for Continued Examination (RCE) under  1.114, thus before the mailing date of a first Office Action after the filing of the RCE for the above-referenced application.

Copies of the listed foreign and non-patent literature documents are attached. Applicants respectfully request that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

The International Search Report cited in the attached SB/08 is a search report for the international application No. PCT/FR03/03285. Both PCT/FR03/03285 and this application claim priority to French Application No. 0213938 and U.S. Provisional No. 60/434,654.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the U.S. Patent and Trademark Office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.
